GALILEO DISCOVERY

Search anything

Search everything

GALILEO DISCOVERY

GalileoDiscovery

With a single search it is possible to retrieve at the same time, in **print and electronic format**:
- Books
- Journals
- articles
- multimedia resources
- encyclopedic entries
- technical standards
- statistics
- contributions to open access scientific research
- ...

GalileoDiscovery - Functional areas

1. Main menu
2. Authentication
3. Simple and advanced search
4. Information boxes

GalileoDiscovery – Main menu

LIBRARY SEARCH — quick way to start a new search

JOURNAL SEARCH — list of journals owned by our libraries; you can search by subject area, title or ISSN

FETCH ITEM — allows you to enter the details of an article and to check if it is owned in electronic format

DATABASE SEARCH — search by title of databases acquired by the University or free, even those that cannot be queried through GalileoDiscovery

**BROWSE** — browsing by Author, Title, Series…

HELP — quick link to the Help service

GalileoDiscovery – Journal search menu

Journal Search | Title or ISSN 🔍

You can search journals by title or select them by category

Journals by category

- Arts, Architecture & Applied Arts
- Business & Economics
- Earth & Environmental Sciences
- Engineering & Applied Sciences
- General
- Health & Biological Sciences
- History & Archaeology
- Journalism & Communications
- Languages & Literatures
- Law, Politics & Government
- Music, Dance, Drama & Film
- Philosophy & Religion
- Physical Sciences & Mathematics
- Social Sciences

Search for journals

Use the following options to find journals:

- Enter a journal title in the search box.
- Use the Journals by category option to browse journals by category.

Choosing a category will open a list in alphabetical order

Each electronic magazine allows you to search for articles within it

JOURNAL
Wine and Viticulture Journal
Broadview, S. Aust Winetitles Pty. Ltd.

Search inside

Search for articles within this journal

Article title or keyword 🔍

# GalileoDiscovery – Browse menu

You can scroll a list by Author, Title, Series, Dewey call numbers, Library of Congress call numbers, and Call numbers

E.g. You want to search for the volumes of the *Food* series:
select from the drop-down menu "Series" and enter the title

To see the titles of the series you have to click on the name
Database search: allows to search for a database by title

or Citation search: allows to enter the details of an article and check if there is access to the electronic format

Fetch item (Citation Linker)

Find a specific journal article, journal or book by citation information.
For best results, include a title, ISSN, ISBN, DOI or PMID.

◉ Article   ◯ Book   ◯ Journal

GalileoDiscovery – Search anything

GALILEO DISCOVERY

Search anything

Search everything

1 Library Catalog

2 Electronic resources

3 Padua Research Archive

4 EBSCO DB

The default **Search All** is the widest.
It is however possible to select some already established sets of materials by scrolling the menu on the right:

1 **Libraries Catalogue**: to search books and journals

2 **Electronic Resources**: to search only electronic resources

3 **Padua Research Archive**: for the University's research products

4 **Ebsco**: to query only the databases of the Ebsco platform

GalileoDiscovery – Advanced search
1 Allows to combine multiple elements and choose which element to search for each: **Title, Author/creator**, **Subject**, **ISSN**, **Dewey classification**

2 For each field the options available are: **contains, starts with, is (exact)**

3 On the right you can also specify: **Type of material, Language and Dates**

SISTEMA BIBLIOTECARIO DI ATENEO

① **Number that identifies the record**: useful for selecting single records

② **Format of the material**: it is identified by both the icon and the indication of the type of document above the title.
The generic icon can be replaced by the cover photo if available.
The Book icon refers to the modern, ancient and electronic books

③ **Bibliographic data**: clicking on the title in blue, takes you to the complete record

④ **Availability**: if the document is on paper it will show the first location, if electronic it will offer the link to the full-text if available

⑤ **Short record actions**

"	Allow to capture and export the exact quotation of the displayed document
✉	Allows to send the record selected from the search results to an e-mail box
📌	If not logged in, it allows to select the result and add it to a provisional list of saved records
...	Allow various possibilities for exporting the result
Y Y	Cited in/Citing, to retrieve articles in relation to that of your interest

PEER REVIEWED

Indicates that the document has been peer reviewed

OPEN ACCESS

Indicates that the document is freely accessible because it has an Open Access license

GalileoDiscovery reports if there are loans due or overdue

QUICK TIPS

designed by freepik.com

If there are overdue loans, it is not possible to renew

By clicking on My requests you can consult the list of reservations in progress (available or pending)

GalileoDiscovery - My favorites

By clicking on My Favorites you can access the list of records saved during the search and you can organize the list of saved results by grouping them with labels

Multiple labels can be associated with the same record.

If you delete a ''copy'' from the general list, it is permanently deleted from My Favorites and no trace remains, even if it has a label.

''Unlabeled copies'' are saved records to which no labels have been associated.

They are not folders, but tags!

GalileoDiscovery – Search History

The last ten searches made are available in Search History. They can eventually be saved or deleted

Rss Feed, clicking on this icon creates a url that is stored on the Rss Reader in use on your computer, tablet or smartphone

**Alert**, send an email to the registered address
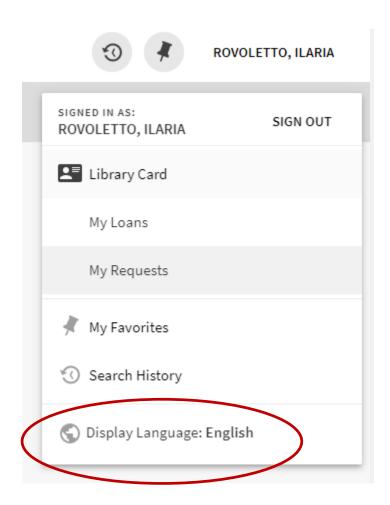

Delete this search from your saved searches

The last item of the Display language menu allows you to set your preferred language. At the moment it is possible to choose only between Italian and English
▪ **Wildcard characters**

In GalileoDiscovery you can use the asterisk as a truncation character - eg. cultur * for culture, cultural, and culturally - and the question mark for any character - eg. wom? n for woman, women

▪ **Exact phrase**

You can use quotation marks " " for the exact phrase.

When using this type of strategy in quick search avoid adding other logical operators. If you want to combine logical operators and exact phrase use the advanced search.

- **Use of parentheses**
  When using more than one operator, Ex Libris recommends using parentheses to clarify precedence

It is preferable to use the logical NOT operator at the end of the search string

Thank you for your attention!
